PRODUCT FAMILY INTERNALS

With the extensive experience gained throughout the years, Say is currently providing reliable and cost-effective components for wind towers. Today, Say supplies internal full kits including all the procurement parts.

PRODUCT FAMILY TOWER ENTRANCE UNITS

Correspondingly, Say supplies the external components for the wind turbines as well.

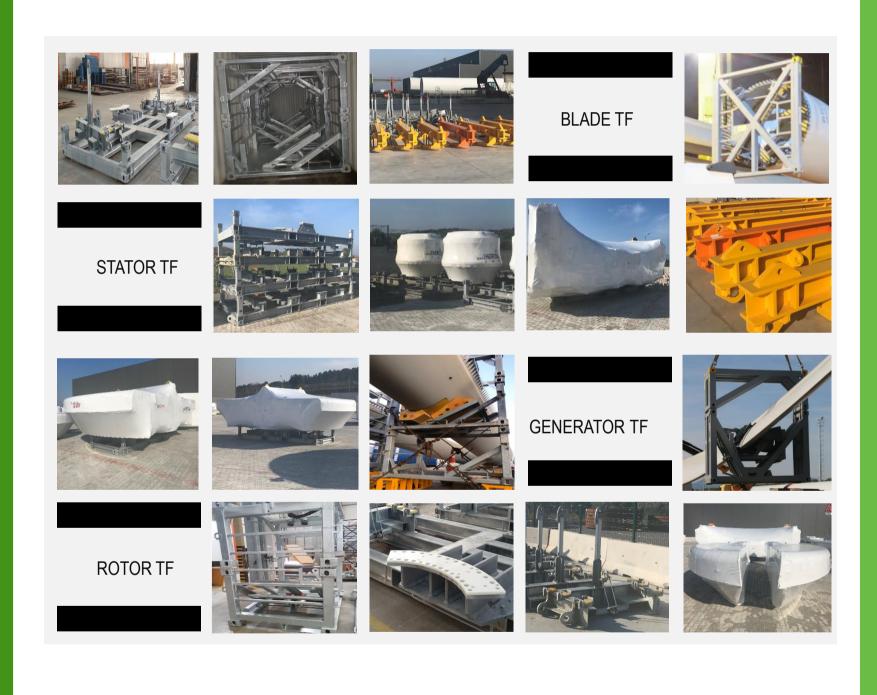

PRODUCT FAMILY TRANSPORT FRANSPORT FRANES

Another milestone that Say included in its product family is the transport frames. Say's metalwork capability also consists of constructional steel which lets us be in charge of the production of any kind & size of transport frame with the necessary industrial corrosion protection such as galvanization or painting according to high corrosivity categories.

PRODUCT FAMILY OTHERS

Say is currently producing several types of tower parts including metal components for generators and nacelles. In addition, Say manufactures plastic components such as

Flange bolt caps Edge cover profiles Cable guides & rings PU plates Bus bar clamping holders
